Fascinators & Headpieces

PROS

Easy to wear
No hat hair once removed
No shadow over the face in photos
Easy to kiss, meet and greet in
Far more wind proof
You can wear it for longer
More suited to indoor or black tie weddings than hats

CONS

(Very small loops fascinators aren't a generally regarded as a substantial or stylish option for a mother of the bride or groom, though fine for guests)

PROS

Appropriate for a very grand wedding.
A safe familiar choice.
Traditional and comfortable choice.
Saucers can be more up to date than some classic crown & brim hats.

CONS

Awkward for greeting guests.
Longer hair best worn up with a hat but this may not the look sought once removed.
Hat hair once removed.
Large brims shadow on the face for photographs.
You won't wear it for as long.

ETIQUETTE TIP

It's tradition for all the guests to keep their headwear on, until the mother of the bride removes hers!
